

27 February 2015

Dear Sir/Madam

Thank you for your recent Freedom of Information request regarding income and admissions due to congestive heart failure.

The Trust can provide the following information:

- The total number of hospital beds within your Trust = 391 (excluding obstetrics and day case).
- The number of deaths within your Trust where congestive heart failure was recorded as a reason = 67
- The number of elective admissions to hospital by patients, where congestive heart failure was recorded as a reason = 11
- For the above patients, the average number of nights they stayed in hospital after they were admitted = 8
- the aggregate income received for treating these patients (this should be the same as the tariff for these patients multiplied by the number of patients multiplied by the average number of nights)--- £33,427.35
- The number of non-elective admissions to hospital by patients, where congestive heart failure was recorded as a reason = 233
- For the above patients, the average number of nights they stayed in hospital after they were admitted = 14
- The aggregate income received for treating these patients (as above, this should be the same as the tariff for these patients multiplied by the number of patients multiplied by the average number of nights) ---- £71, 9041.46

If you have any queries about this response please contact the information governance manager at foi@homerton.nhs.uk , in the first instance. If, following that, you still have any concerns, you may contact the Information Commissioner either by letter, FOI/EIR Complaints resolution, Wycliffe House, Water Lane, Wilmslow, Cheshire SM9 5AF, or by email www.informationcommissioner.gov.uk to take them further.
