Dear Sir/Madam

Thank you for your recent Freedom of Information request regarding infant nutrition products.

The Trust can provide the following information:

1 . Link to the Formulary that contains Infant Nutrition Products.

The joint formulary (which can be accessed by the public) lists all products available in each BNF chapter so will include all nutritional products (but each product is assigned a status i.e. hospital only, specialist initiation, not approved etc.)

2. Please provide the Formulary document and guidelines that contain Infant Nutrition product prescribing recommendations. As above
