Dear Sir or Madam,

Ref: FOI 2352

Thank you for your recent Freedom of Information request relating to under 16's and Sexually Transmitted Diseases.

The Trust can provide the following information:

- How many children (aged 15 and under) have attended services at your trust to get tested for sexually transmitted diseases? Please provide the total number for each year – and in addition, break down by age (age band is adequate if the numbers are small).**

	2012	2013	2014	2015	2016	Grand Total
Age						
11			Less than 5	Less than 5		6
12	Less than 5	Less than 5	Less than 5	Less than 5		11
13	14	26	29	18	7	94
14	60	116	170	235	32	613
15	102	304	381	680	82	1549
Grand Total	178	449	587	938	121	2273

**Please note where the figure for the requested data is less than 5 we have indicated this by in the relevant cells. This information has been suppressed because of the low numbers and the risk that individuals could be re-identified from this data.*

- Please provide the total number of STD tests that came back positive in children under 16 over the last five years – and again, please break down by year, age, - as well as the type of STDs that were diagnosed.**

Please see attached document

- If this has not been made clear in the above response – what is the specific age of the youngest child to be diagnosed with an STD over the last five years – and what was the STD?**

Please refer to the above provided information

4. Please separately provide the total number of children under 16 who were diagnosed with HIV over the last five years – with a breakdown of ages for each year. This includes children who were found to have HIV when attending hospital for another matter.

We do not have patients under 16 who were diagnosed with HIV

5. Within these figures, please also include the numbers of children who were found to have an STD when using hospital services for other services.

Year	Total
2011	1
2012	1
2013	1
2014	0
2015	0
